Methods of Use

The Primetake 12 x Rubber Ball Round is designed to be accurate and incapacitate or distract a target using non lethal force. The Round, used in public order situations, has the ability to disperse hostile crowds or individuals at a distance of up to 15m.

Description

The round contains a nitrocellulose propellant which fires 12 high density rubber balls. The Rubber Ball Round is supplied in a clear plastic cartridge case, with a grey top.

Performance/Safety

Use in Magnum proofed unchoked shotguns only. Range Safety Template available on request.

Articles should remain within the original sealed package and be stored within a temperature controlled environment of +5°C to +30°C; relative humidity should not exceed 70%. Storage outside of these conditions will not be warranted and may reduce the shelf life and lead to the articles not functioning as intended.

At Primetake we constantly review our products—all specifications are a guide and may vary so please check that the latest specification meets your requirements
