

Quality & Environmental Policy Statement

Primetake Limited is a company committed to the;

- design, test, manufacture and supply of ammunition and Pyrotechnics
- wholesale supply and distribution of explosives and associated ammunition

The Company's objective is to design, manufacture and supply product and associated services profitably, in a professional manner which meets and exceeds our customers' expectations with respect to quality, cost, performance, safety and reliability. Through continuous improvement in every aspect of our business, Primetake aims to develop the reputation of excelling as a leader in the manufacturer of specialised ammunition and related products.

We believe that our performance will be measured by the effectiveness of the way in which we meet our customers' requirements and by our impact on the shared environment.

To achieve these objectives we are totally committed to effective quality and environmental management at every level within the business and to operating a Management System which fully satisfies the requirements of ISO 9001:2008 & ISO 14001:2004, together with other relevant quality systems as appropriate for specific customers' demands. Regular internal audits and quality management reviews sustain the Management System to ensure enduring effectiveness and suitability. These reviews are the framework for establishing and reviewing quality and environmental objectives.

Our aim is to continuously improve the effectiveness of our quality / environmental management system, processes and procedures thus improving our efficiency and quality at all levels and stages of our business.

Ultimate responsibility for this policy lies with the Managing Director. The Quality Manager is responsible for the effective implementation and policing of all matters relating to the quality and environmental system. Every member of staff is responsible for implementing the Management System and all personnel have an obligation to follow agreed processes and procedures at all times.

The management team accept responsibility for communicating to all employees Primetake's commitment to quality and environmental issues and by ensuring that this Policy is understood, implemented and maintained at all levels. All members of staff are encouraged to be conscious of the contribution that they can make towards the achievement of objectives & targets set by the company for continual improvement.

Primetake will do its utmost to continually reduce its environmental impact and energy use.

Primetake work to continually improve environmental performance and prevent pollution to land, air and water by monitoring company processes, through improvement to operating procedures and by reusing and recycling waste. We will ensure that our operations comply with current legislation and other relevant requirements.

We will endeavour to control the activities of the company to minimise any risks of pollution to the environment through operating procedures, programs and resources in place to implement our environmental quality policy.
