

4. DEMOLITION ACCESSORIES

Charge Demolition PE 8oz (250g)

Catalogue No. 04.01.3520

Vers. 2

Primetake Part - PT3520

Methods of Use

Primetake PE4 can be manipulated immediately consolidating into a rubbery plasticised mass which may be kneaded and pressed into any shape. This material has excellent mechanical and adhesive properties, and may be stretched into long strands without breakage.

Description

The PE4 is generally white in colour and has a similar consistency of putty allowing moulding into any shape.

Performance/Safety

PE4 is an explosive for demolition tasks based on Charge Demolition 8 oz Cartridge No. 4 PE according to Ammunition and Explosives Regulations dated December 1993. It consists of RDX mixed with a plastic binder.

4. DEMOLITION ACCESSORIES

Charge Demolition PE 8oz (250g)
