

SMOKE GRENADE

Primetake's Smoke Grenades release rapid dense smoke for screening and obscuring. Available in full size (66mm) or compact (38mm).

VARIATIONS

Primetake's Smoke Grenades are made in a hermetically sealed metal body. The ring-pull lever mechanism is a trusted and recognised design format employed across the Primetake grenade series.

The grenades provide an accelerated initial output to build rapid immediate cover.

Formulated to incorporate a significant reduction in smoke toxicity delivered with minimal flame for safe and controlled operation and training.

Full range of colours available.

PERFORMANCE THAT COUNTS

Rapidly deploys >2000 litres of dense smoke per second to strengthen your cover

Graduated reduced output safety delay

Tough, durable and waterproof

Reduced toxicity and REACH compliant

COMPANY INFORMATION

HISTORY

In 1991, Primetake began designing and manufacturing less lethal bird scaring cartridges to supply to airports and airfields in the UK. Based on requirements from its clients, the Company went on to develop a range of tactical 12G rounds for Defence and Security sectors. The Company expanded into its unique facility in the UK – capable of meeting all of its R&D needs. Other products were added to the portfolio including: Ceremonial Saluting Cartridges, Pyrotechnics/Energetics, EOD Cartridges, Sniper Ammunition, Blackout, Distraction Devices, and Signal technologies. The agility of Primetake's research and development team is a differentiator for its customers.

INTERNATIONAL TRADE

Over the past several years, Primetake has sought to expand international trade orders whilst meeting increasing demand from the core UK market. As a result of its focused strategy, export orders now account for almost 70% of all orders. The business is committed to growing export orders by working closely with in-country agents to develop new opportunities, and cement Primetake as an internationally recognised brand, and the number one choice for specialist ammunition and pyrotechnic users.

QUALITY

Primetake has always adhered to the fundamental values on which it was founded: reliability, accuracy, safety and application expertise. All of which underpin Primetake's close relationship with elite user groups around the world. Primetake has consequently developed a reputation for high performance. Every product manufactured by Primetake has been designed and developed by in-house research and development specialists. Products undergo rigorous testing to ensure they meet quality standards and technical specification. In order to maximise product performance, Primetake's skilled production staff utilise a mixture of sensitive manual processes with state-of-the-art automation equipment.
